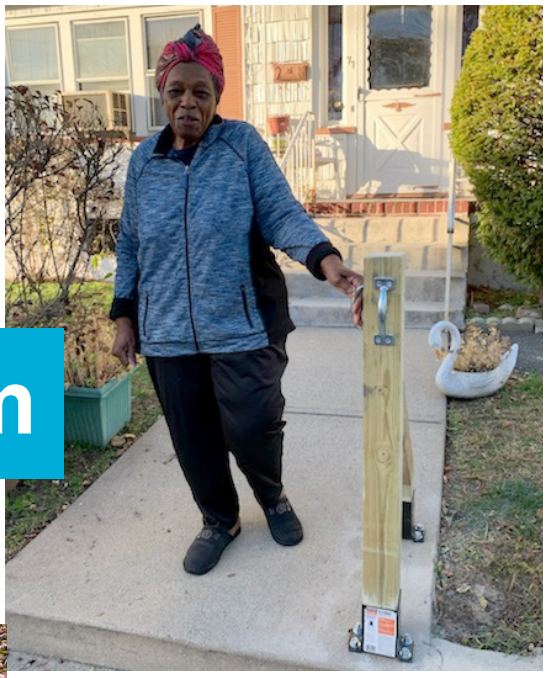
Greater Middlesex & Morris Habitat for Humanity®



aging in place program

home repair for seniors

Thank you all for outstanding workmanship and caring. My home has been transformed and safer with the additions of railings, windows, tub grab bars, (and) wireless lights over basement stairway. I will be 87 in June and this service has been a blessing to me. Thank you all involved with this amazing service. I will pass it on in some way.

–Stephanie D., Madison, NJ

About Greater Middlesex & Morris Habitat for Humanity (GMM Habitat)

GMM Habitat advocates for and builds affordable housing to enhance lives and strengthen the community. Since 1985, our homebuilding, repair and international programs have served over 1,000 families.

For more information about our programs, visit **www.GMMHabitat.org**

GMM Habitat believes everyone deserves the opportunity to age with dignity in their own home and community. The Aging in Place (AiP) program makes **accessibility, energy efficiency and home improvements for seniors** of Greater Middlesex and Morris Counties and the communities of Fanwood, Plainfield, Scotch Plains, Green Brook, North Plainfield and Watchung.

Our goal is to **help seniors live in their own homes longer and maintain their independence.** GMM recognizes that communities are only as strong as the families who live in them, and families are financially and emotionally stronger when they have a decent place to live.
